NINETEENTH CONGRESS OF THE FEDERATED STATES OF MICRONESIA

SIXTH REGULAR SESSION, 2017

C.B. NO. 19-257

A BILL FOR AN ACT

To amend title 18 of the code of the Federated States of Micronesia by amending existing sections thereof and inserting additional sections that establish additional maritime zones, extension of continental shelf and baselines as recognized by the Law of the Sea Convention, to bring title 18 in conformity with contemporary norms and practices under international law, to incorporate treaty obligations assumed by the Federated States of Micronesia such as maritime boundary delimitation treaties with neighboring nations, and for other purposes.

BE IT ENACTED BY THE CONGRESS OF THE FEDERATED STATES OF MICRONESIA:

1	Section 1. Section 101 of title 24 of the code of the
2	Federated States of Micronesia is hereby amended to read as
3	follows:
4	"Section 101. Baseline system defined.
5	(1) A baseline is a continuous line which encircles an
6	island or <u>an</u> atoll. The baseline from which the zones
7	designated in this Chapter are to be measured is as
8	follows:
9	[(1)] <u>(a)</u> The baseline of an island or portion of an island
10	lacking a barrier reef, fringing reef, or other reef system
11	is the low-water line of the island drawn by reference to
12	lists of geographical coordinates expressed in terms of the
13	geodetic datum or as marked on large-scale charts
14	officially recognized by the government of the Federated
15	States of Micronesia.
16	[(2)] (b) The baseline of an atoll or island or portion of

1	an island having a barrier reef, fringing reef, or other
2	reef system is a line following the contour of the seaward
3	edge of the reef system, which line connects those
4	outermost elevations of the reef which are above water at
5	low <u>-water</u> [tide,] drawn by reference to lists of
6	geographical coordinates expressed in terms of the geodetic
7	datum or [and which line exists] as marked on large-scale
8	charts officially recognized by the government of the
9	Federated States of Micronesia.
10	(c) Where there are breaks in reefs, entrances to lagoons,
11	river mouths or bays, the President may make regulations
12	declaring the geographic coordinates of the natural
13	entrance points of low water between closing lines are
14	drawn.
15	(2) Baselines may be comprised of straight archipelagic
16	baselines joining the outermost points of the outermost
17	islands and drying reefs of the archipelago.
18	(3) The baselines from which the breadth of the Territorial
19	Sea, contiguous zone, exclusive economic zone and
20	continental shelf of the Federated States of Micronesia are
21	those defined and described in Schedule 1 and include
22	points between which archipelagic baselines or closing
23	baselines are drawn. The President shall officially
24	declare the incorporation of Schedule 1 to this section,
25	and he may, from time to time, by executive proclamation,

2	(3) "Continental shelf" means the Continental Shelf
3	established under section 105B. It comprises the seabed
4	and subsoil of the submarine areas that extend beyond the
5	Territorial Sea throughout the natural prolongation of land
6	territory to the outer edge of the continental margin, or
7	to a distance of 200 M from the baselines from which the
8	breadth of the Territorial Sea is measured where the outer
9	edge of the continental margin does not extend up to that
10	distance. The Continental Shelf may, in accordance with
11	section 105C, extend beyond the 200 M from the baselines in
12	accordance with the limits recognized by the Convention.
13	For the purpose of this section, the term "continental
14	margin" shall have the same interpretation as understood
15	under the Convention.
16	(4) "Convention" means the United Nations Convention on the
17	Law of the Sea.
18	(5) "Geodetic datum" means the World Geodetic System 1984
19	
19	(WGS84).
20	(WGS84). (2) (6) "Island" means a naturally formed area of land,
20	(2) (6) "Island" means a naturally formed area of land,
20 21	(2) (6) "Island" means a naturally formed area of land, surrounded by water, which is above water at high tide.
20 21 22	(2) (6) "Island" means a naturally formed area of land, surrounded by water, which is above water at high tide. (7) "Low-water" means the Lowest Astronomical Tide.

1	(10) "Straight line" means geodesic.
2	(11) "Territorial Sea" means the territorial sea of the
3	Federated States of Micronesia.
4	(11) "Zones" means the different maritime zones recognized
5	in the Convention, namely: the territorial sea, the
6	contiguous zone, the exclusive economic zone, and the
